DED Economic Impact Analysis Overview

REMI Missouri Economic Regional Model Economic Impact Example

REMI Missouri Economic Model

The REMI Missouri Regional Economic Model is used by the Missouri Department of Economic Development (DED) to forecast economic and policy impacts statewide and across 17 economic regions. DED uses the REMI model to assess the economic and fiscal impacts of new firms, layoffs, industrial restructuring, and tax credits.

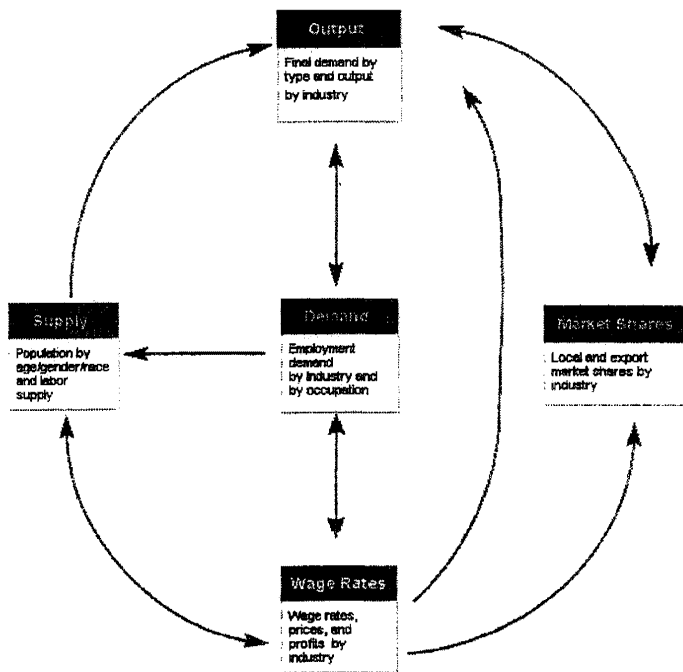

REMI Features:

- It is calibrated to regional conditions using a relatively large amount of area data, which improves performance, especially under conditions of structural economic change.
- It combines several analytical models (including input-output, general equilibrium, economic geography and econometric models), allowing it to take advantage of each specific method's strengths and compensate for its weaknesses.
- It allows the user to generate forecasts for any combination of future years, allowing the user special flexibility in analyzing the timing of economic impacts.
- It accounts for changes in prices, wage rates, migration patterns, labor participation, etc. that are generated from supply and demand movements.
- It is used by a large number of researchers under diverse conditions and has proven to perform acceptably.

The REMI Missouri Economic Model is utilized to forecast economic impacts at the regional and state level. REMI includes a model that has been built for Missouri's 17 economic regions, which are based on commuting and trade flows between counties. The model-building system uses hundreds of programs developed over the last two decades to build customized models for each area using data from the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Department of Energy, the Census Bureau and other public sources. The model is based on past and current research and development, which is subject to peer review and published in academic journals. REMI is currently used by hundreds of governmental agencies, universities, and others. Articles about the model equations and research findings have been published in professional journals such as the *American Economic Review*, *The Review of Economic Statistics*, *the Journal of Regional Science*, and the *International Regional Science Review*.

17 Region REMI Model

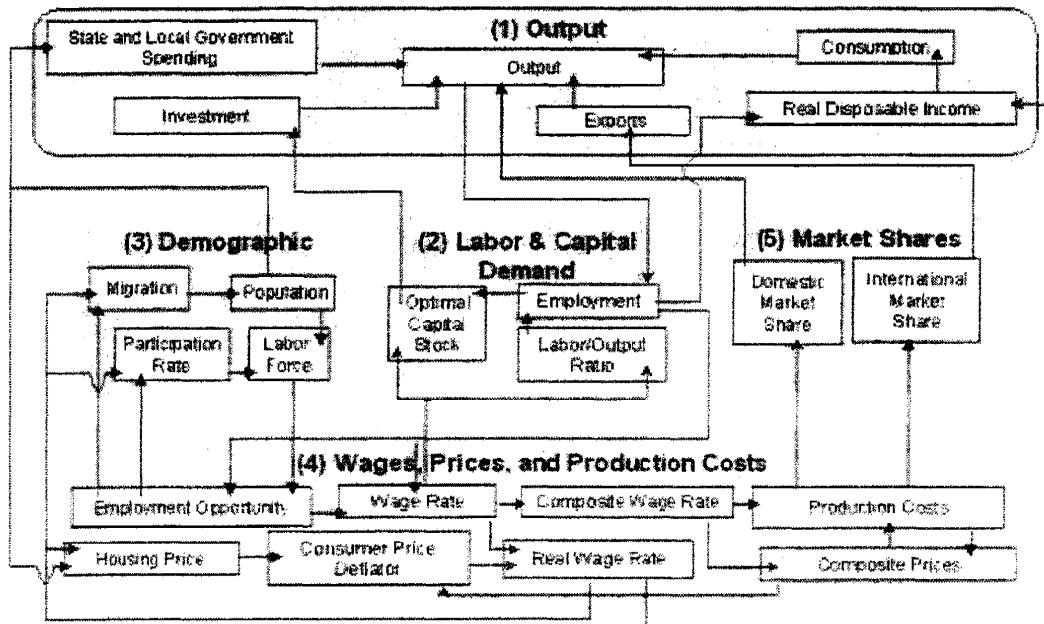

Although the model contains a large number of equations, the five block illustrations on this page describe the underlying structure of the REMI model. Each block contains several components that are shown in rectangular boxes. The lines and arrows represent the interaction of key components both within and between blocks. Most interactions flow both ways indicating a highly simultaneous structure. The *Output Block* linkages form the core of the model. An input-output structure represents the inter-industry and final demand linkages by industry. The interaction between the *Output Block* and the rest of the model is extensive.

Predicted outputs from the *Output Block* drive labor demand in the *Demand Block*. Labor demand interacts with labor supply in the *Supply Block* to determine wages in the *Wage Rates Block*.

Combined with other factor costs, wages determine relative production costs and relative profitability in the *Wage Rates Block* affecting the market shares and exports in the *Market Shares Block*. Market shares determine the amount of demand supplied locally, which feeds into the *Output Block* and again runs through the above process. Concurrently, the *Supply Block* determines population changes based on employment opportunity, which feeds back into output, wages and government spending.

Economic Impact Example

The following economic impact example is used to illustrate how analysis is conducted and what the results mean.

Scenario: A new manufacturing company locates in Missouri. The firm builds the plant in 2009 and starts operations in 2010. The plant will employ 100 full-time workers.

YEAR ONE: INVESTMENT ACTIVITY ONLY

- The firm will invest \$10 million to build the plant in 2009.
- The state offers \$1 million in tax credits.
- The firm redeems \$500,000 of the tax credits in 2009 and the remainder in 2010.

---	-----------

Initial capital investment spending creates 118 new jobs in 2009, mostly in construction. Some workers migrate into Missouri which increases the population.

Construction, utilities, professional/tech. services, and other direct investments spur additional economic activity in business sectors that supply inputs. Jobs that result from these direct and indirect activities create further spending in such sectors as retail and food services.

These effects multiply throughout the economy. As each round of spending occurs, a portion of money is spent on imports which leaks income out of the state and eventually halts the impact.

General revenue, primarily individual income taxes followed by sales and corporate income tax, is increased by the investment impact.

General expenditures, typically a negative impact to state government, is positive in year one because reduced payouts from social services offset smaller spending increases in education, public safety, and administration.

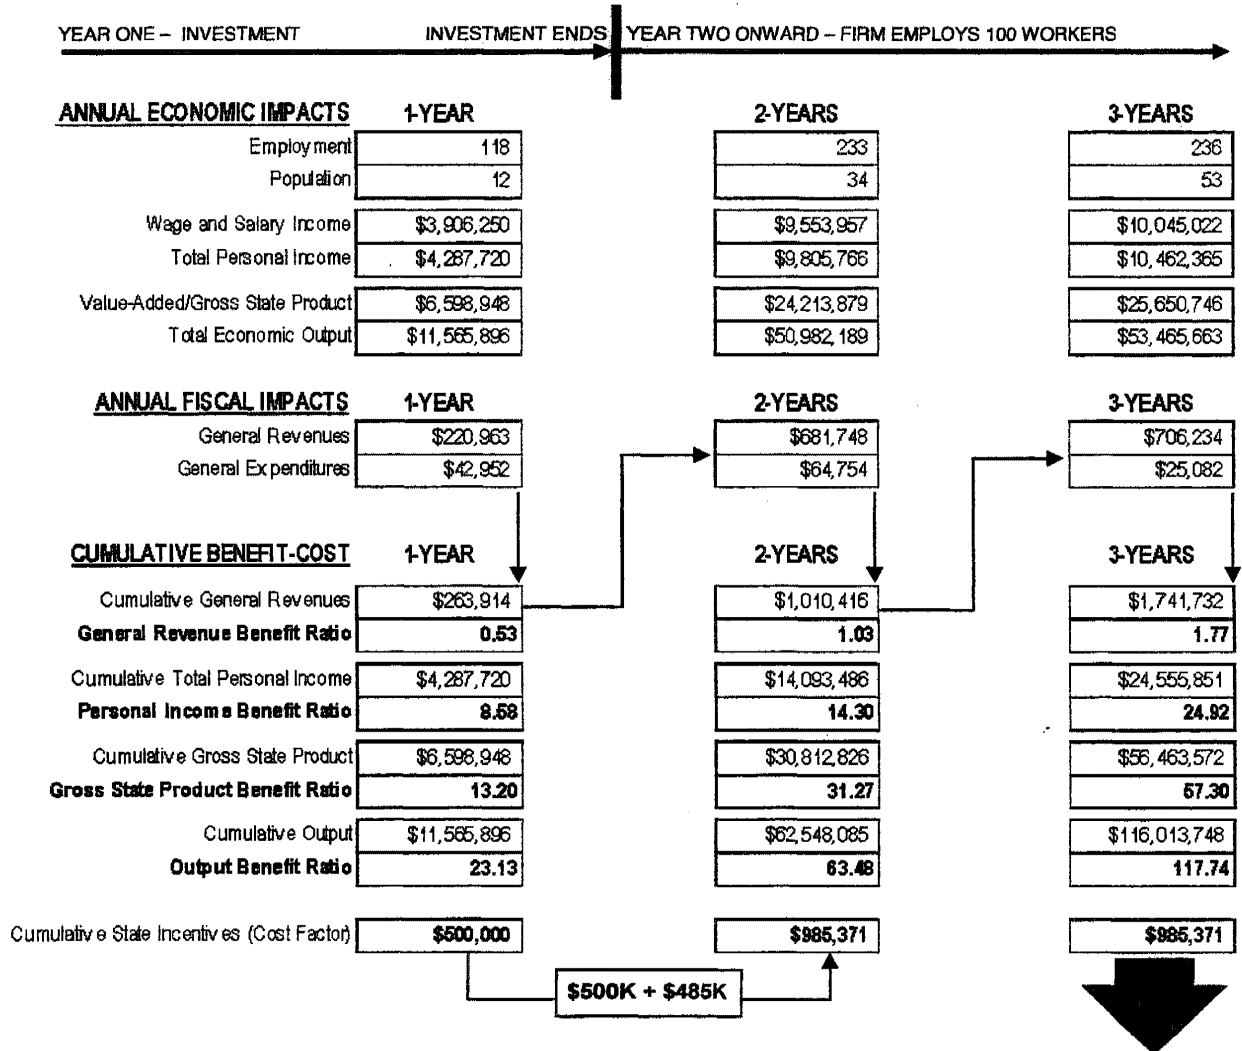

Note: MERIC adjust over two dozen fiscal categories in REMI yearly to reflect Missouri OA budget figures.

ADD YEARS TWO AND THREE: FIRM EMPLOYS 100 WORKERS

- The firm will employ 100 full-time workers starting in 2010. The 100 direct manufacturing jobs create an additional 133 indirect jobs in year two (total of 233) due to the purchase of inputs and spending by new workers.
- The firm redeems remaining \$500,000 (\$485,371 in current dollars) of tax credits in 2010. Future dollar values are discounted to present value for benefit/cost comparisons.

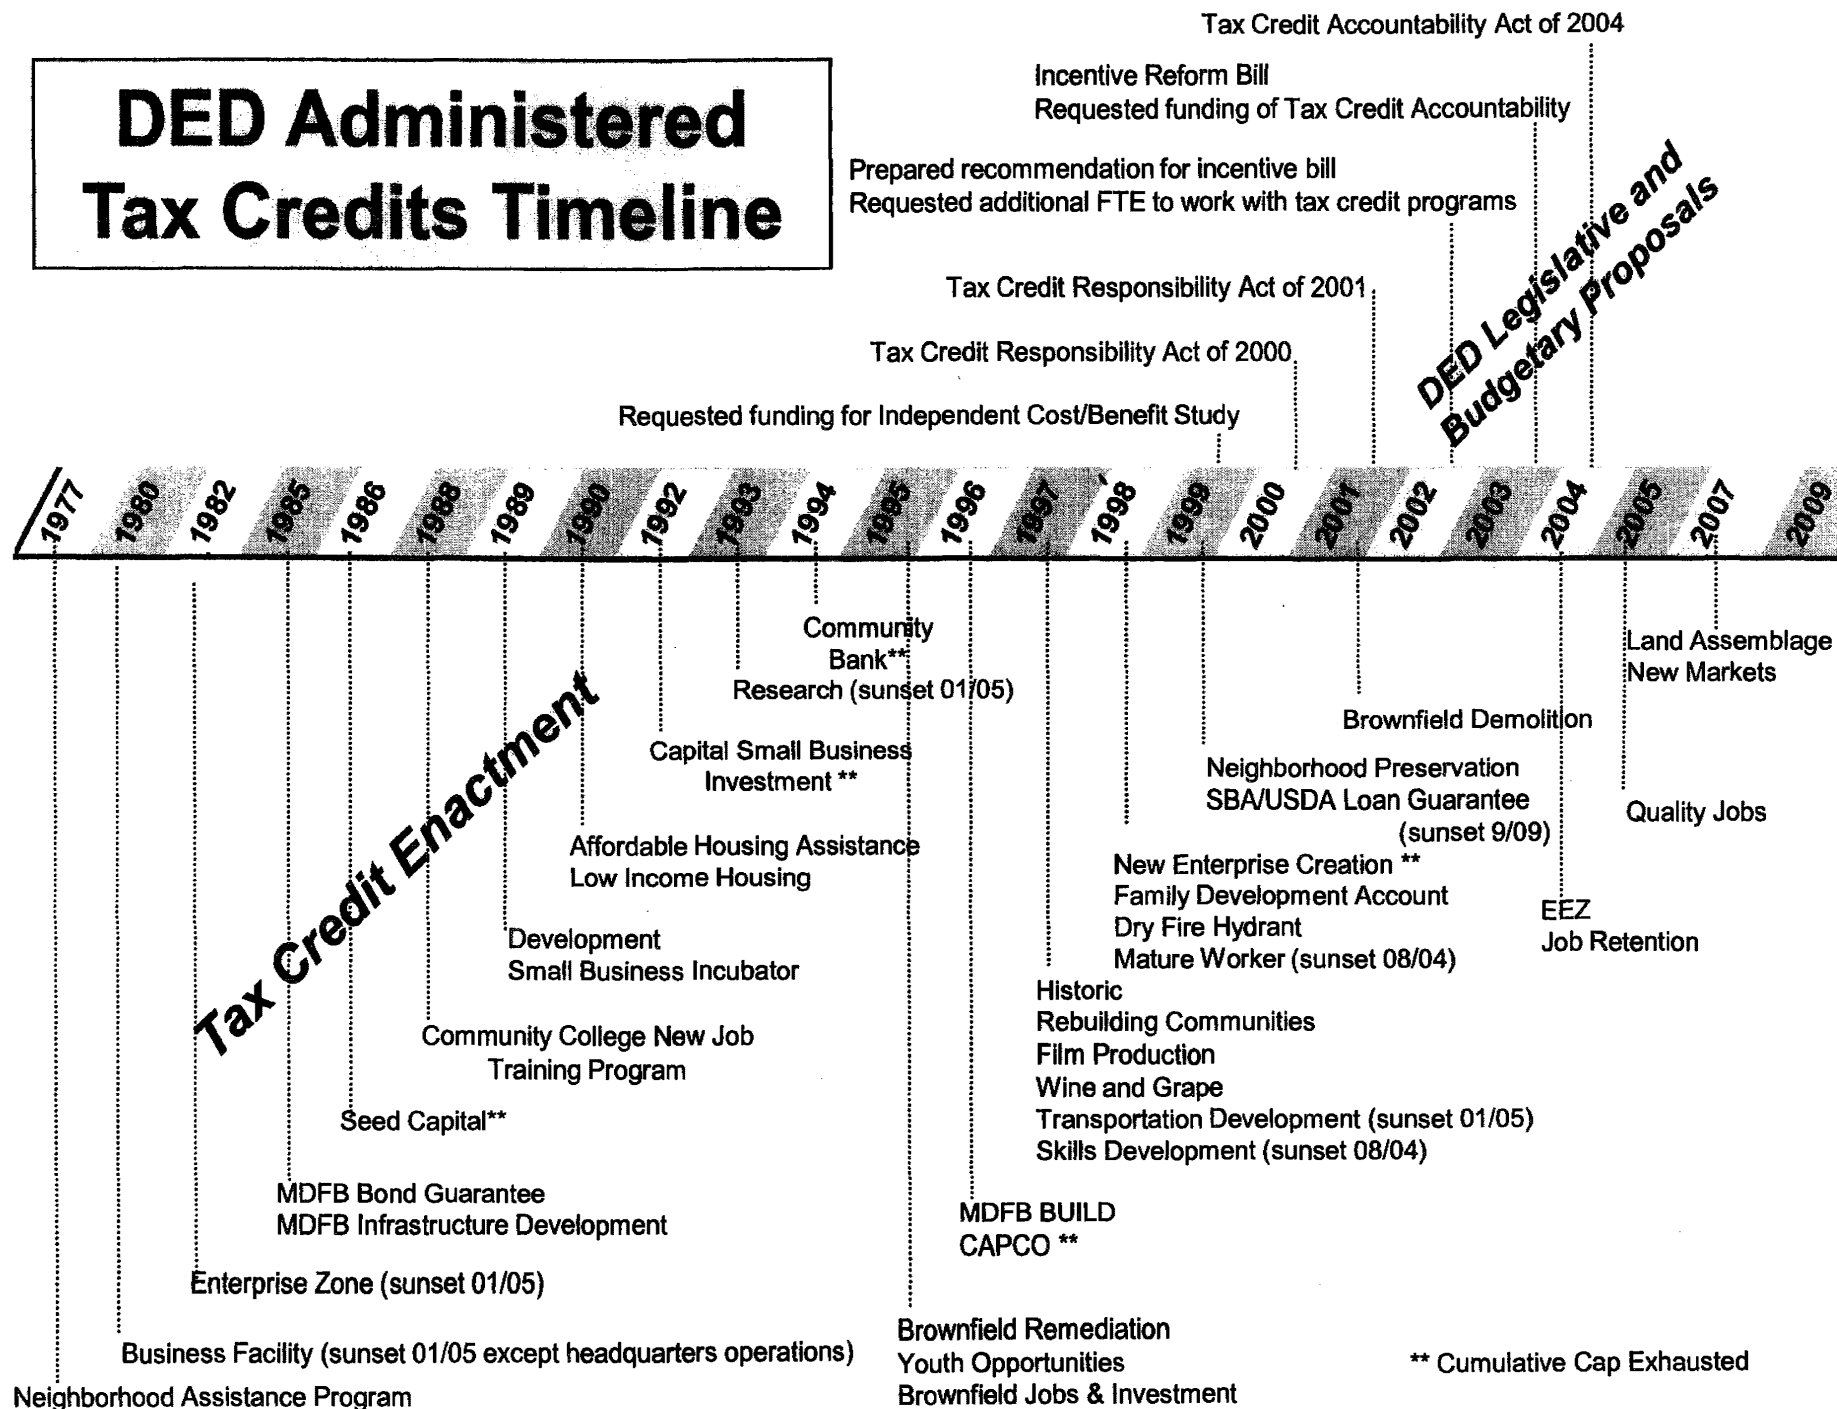

Benefit Ratio over Time

Beneficial impacts, such as net new General Revenue and Personal Income, are summed up along with the cumulative cost of incentives to develop the Benefit Ratio. All values are discounted to current dollar figures.

LOW INCOME HOUSING TAX CREDIT PROGRAM

MISSOURI HOUSING DEVELOPMENT COMMISSION

PURPOSE

An incentive for the new construction or rehabilitation of rental housing affordable to low and moderate income families in Missouri.

AUTHORIZATION

Sections 135.350 to 135.363, RSMo

HOW THE PROGRAM WORKS

This program leverages equity investments from the private sector for the development of rental housing, thereby reducing rents to affordable levels for low and moderate income families. It is based upon the federal low-income housing tax credit program and provides a state tax credit for ten years to qualified owners and investors in affordable rental housing developments equal to approximately 9% of the eligible development costs. Developments financed with tax-exempt bonds are eligible to apply for state tax credit for approximately 4% of the eligible development costs.

The state low-income housing tax credit may be allocated to a qualified project in an amount up to 100% of the federal tax credit allocated to the project. The total amount of federal 9% credits available is capped annually at an amount set by the IRS and based on the population of the state, which results in a cap for the state 9% credits at the same amount. There is also a \$6 million statutory annual cap on authorizations of state 4% credits.

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Developers (private and not-for-profit) are eligible to apply for tax credit.

ELIGIBLE USE OF TAX CREDITS

This tax credit can be applied to:

- ✓ Ch. 143 – Income tax
- ✓ Ch. 147-Corporation Franchise tax
- ✓ Ch. 148 –
 - ✓ Bank Tax
 - ✓ Insurance Premium Tax
 - ✓ Other Financial Institutions Tax
- ✓ Ch. 153-Express Company Tax

This credit's special attributes:

- ✓ 10-year credit
- ✓ Carryback 3 years
- ✓ Carryforward 5 years
- ✓ Sellable or transferable within an ownership structure

APPLICATION PROCEDURE

Each summer a notice of funding availability is issued announcing an application deadline for both 9% and 4% projects scheduled in the fall. The process to determine the allocation of tax credits is competitive. MHDC staff reviews all proposals to determine the financial feasibility and the demand for affordable rental housing in the community. Staff makes its recommendations to the Commission from the fall application round in the winter. A second application round is held for 4% projects in the spring, which follows the same competitive evaluation process, with staff recommendations and Commission approvals made before the end of the fiscal year.

SPECIAL PROGRAM REQUIREMENTS

An eligible proposal must:

- ✓ Create rental units for households having incomes below 60% of the area median family income;
- ✓ Maintain the affordability of the rental units by restricting rents for up to 30 years;

12/09

- ✓ Assist in the production of financially viable, market appropriate housing in areas of greatest housing need in the State;
- ✓ Be sponsored by an entity with prior successful housing experience and the ability to proceed in an expeditious manner.

An approved proposal must meet program standards including on-going compliance reviews concerning:

- ✓ Resident household eligibility;
- ✓ Rent restrictions;
- ✓ Occupancy standards;
- ✓ Physical property condition.

TAX CREDIT ANALYSIS

Program Name: Missouri Low Income Housing Tax Credit Program	Department: Missouri Housing Development Commission	Date: Nov 2009 REVISED
Program Category: Housing	Type: Tax Credit <u>X</u> Other (specify) _____	
Statutory Authority: Sections 135.350 - 135.363, RSMo	Applicable Taxes: Income Tax; Corporate Franchise Tax; Insurance Company Annual Tax on Gross Premium Receipts; Other Financial Institutions Tax; Express Company Annual Tax on Gross Premium Receipts	

Program Description and Eligibility Requirements:

The Missouri Low Income Housing Tax Credit Program (LIHTC) is a ten-year state tax credit to qualified owners and investors in affordable rental housing. The LIHTC generates equity investments from the private sector for the development of new or rehabilitated rental housing in order to lower rents to affordable levels for qualified low-income families. A qualified development is one that rents at least 20% of its units to families earning 50% of the median family income or at least 40% of its units to families earning 60% of median family income, adjusted for family size. The development must: meet a demonstrated need for affordable rental housing in the community; be economically feasible; leverage tax credits with other financing; demonstrate local support; and provide affordable rental housing for qualified low-income Missourians for an extended period of time, typically 30 years.

Explanation of How Award is Computed:

Entitlement Discretionary X

The amount of the Missouri LIHTC allocated to a given housing development is directly related to the percentage of low-income housing units made available to qualified low-income families and the acquisition, construction or rehabilitation expenditures, less land and non-depreciable costs, to create the development. There are two types of Missouri LIHTC: 9% and 4%. Developments compete annually for the 9% Missouri LIHTC, which enables them to receive tax credits equal to 9% of the total eligible development costs. Developments receiving an allocation of tax-exempt bond-financing from the Dept. of Economic Development may apply to receive the 4% Missouri LIHTC in an amount equal to roughly 4% of the total eligible development costs. The maximum amount of Missouri LIHTC that may be issued for any development is 100% of the federal LIHTC issued for the development.

Program Cap: Cumulative \$ _____ (remainder of cumulative cap) \$ _____ Annual 100% of federal LIHTC for 9% and \$6 million for 4% None _____

Explanation of cap: The 9% Missouri LIHTC issued through the competitive application cycle is capped at 100% of the federal LIHTC or approx. \$2.00 per capita for 2009. Per HB 191 (2009), the annual amount of new 4% Missouri LIHTC to be authorized is capped at \$6 million.

*MHDC's administrative process historically resulted in the authorization of credits one fiscal year after commission approval. In FY09, MHDC changed its procedures to align authorizations with the fiscal year in which credits are approved. The FY09 authorized amount accounts for credits approved in both FY08 and FY09 as MHDC transitions from the old process to the new. For FY10 and forward, estimated authorizations reflect projects granted initial commission approval and authorization within the same year. **Because of the way tax credits are tracked and reported, redeemed credits cannot be tied to a particular year out of the 10-year credit stream. This makes it impossible to account for expired credits and the effect of the carry forward and carry back period. The figure provided is considered the maximum potential outstanding amount.

HISTORICAL AND PROJECTED INFORMATION

Comments on Historical and Projected Information: (See note on previous page regarding FY09 Amount Authorized.) Historically, the amount of authorized and issued LIHTC has fluctuated based upon the number and size of developments receiving an allocation of tax-exempt bond financing from the Department of Economic Development and therefore receiving 4% LIHTC. HB 191 (2009) capped the number of new annual 4% LIHTC authorizations at \$6 million and projections for FY10 and FY11 reflect the new cap. The projections of redeemed credits for FY 10 and FY 11 are an estimate based on the amount of credits issued and the historical trend of credits redeemed. This projection cannot precisely account for carry forward and carry back provisions nor the individual credit holder's decision on when to claim a particular credit.

BENEFIT-COST ANALYSIS (Includes only state revenue impacts)

	FY 2009 ACTUAL	Other Fiscal Period (15 years)	Derivation of Benefits:
BENEFITS			Investment: (a) \$654,933,504 in residential construction and development costs between 2009-2010. Employment: (a) 126 FTE employees (0 displaced) in Rental/Leasing and Repair/Maintenance industries in 2011-2023; (b) \$997,516 annual maintenance contracting between 2011-2023 Other Assumptions: (a) 4,098 low income households with reductions of household expenditures by \$9,638,496 per annum (\$196 monthly per unit) between 2011-2023. Incentives/Credits: \$313,806,610 in Authorized LIHTC between 2009-2021, which is net of any additional credits approved for previously authorized developments for which the incentives have already been counted in previous years' cost analysis. The multi-year fiscal Benefit-Cost Ratio is .10 when other program incentives are included. Impacts occur in the Statewide Region. Assumptions provided by MHDC. Estimated using REMI-9.5-Regional Model (remi-fiscal-95-jul09).
Direct Fiscal Benefits	\$4,479,288	\$18,540,074	
Indirect Fiscal Benefits	\$3,490,424	\$14,447,098	
Total	\$7,969,712	\$32,987,172	
COSTS			
Direct Fiscal Costs	\$0	\$270,497,524	
Indirect Fiscal Costs	\$0	\$0	
Total	\$0	\$270,497,524	
BENEFIT: COST	NA	0.12	

Other Benefits: The Missouri LIHTC increases the availability of rental housing that is affordable to low-income families and seniors. It also reduces blight and improves communities through the new construction and rehabilitation of affordable rental housing in Missouri. The additional project equity raised by the state LIHTC allows more projects to be built and makes project rents more affordable. In 41 out of 78 projects authorized in FY09, the projects would not be feasible as Low Income Housing Tax Credit units without the state tax credit equity, resulting in a loss of 1,931 affordable rental units in the state. In the 35 remaining projects, the rents would increase an average of \$288/month without the state tax credit equity. The reduced rents brought about by the state tax credit increases households' disposable income and allows low-income families and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The Missouri LIHTC increases the quality of construction and provides additional amenities in developments such as community rooms for seniors and learning centers for children living in affordable multi-family housing developments in Missouri. The subsidy provided by the Missouri LIHTC also makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Lastly, the Missouri LIHTC helps preserve affordable rental housing that is in danger of being lost from the affordable housing stock and it leverages millions of dollars of federal rental assistance for many low-income families and seniors in Missouri.

AUTHORIZATION

Sections 100.700 to 100.850, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

- Manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce, which will invest a minimum of \$15 million in capital improvements for a project and create at least 100 new jobs within three years.
- Office projects (regional, national or international headquarters, telecommunications operations, computer operations, insurance companies or credit card billing and processing centers) are also eligible if the capital improvements exceed \$10 million and at least 500 new jobs are created within three years (200 jobs if in a "distressed community" - §135.530, RSMo).
- Ineligible: Retail, health or professional services, intra-state relocations or replacement facilities.

PROGRAM BENEFITS/ELIGIBLE USES

The bonds may be used to finance public or private infrastructure to support the project, or the new capital improvements of the business at the project location. Bond proceeds may not be used for working capital, inventory or other operating costs of the business or another entity.

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 – Bank Tax, Insurance Premium Tax, Other Financial Institution Tax

This credit's special attributes:

- Refundable

FUNDING LIMITS

The amount of bonds to be issued will be determined by the Missouri Department of Economic Development (DED) and the Missouri Development Finance Board (MDFB), based on the need for funding to initiate the project, and limited to the state's economic benefit. The minimum bond issue is \$500,000.

APPLICATION/APPROVAL PROCEDURE

The business must submit an application to DED and MDFB for review. Applications are due 15 business days prior to the first Monday of the month. DED and MDFB will review on a case-by-case basis.

REPORTING REQUIREMENTS

The business must report to MDFB the number of new jobs; the total amount of salaries and wages paid to eligible employees and investment in capital improvements, semi-annually during the initial 3-year build out phase and annually for the term of the credits.

SPECIAL PROGRAM REQUIREMENTS

The following conditions must be met for a project to be approved.

- **Sale of Bonds:** Unless otherwise approved by the Board, the Applicant will be required to purchase the Bonds.

- **Cooperative Effort:** The political subdivisions benefiting from the project or other local entities must commit significant local incentives relative to their economic benefit compared to the state. Such incentives may include tax abatement, discounted utility fees or others, to the extent allowed by law.

"But For" Test: The company may not start the project prior to MDFB approval of the application. This would include any public announcement, construction or receipt of new machinery or equipment at the project site related to the new project. DED and the MDFB must determine that the program is a material factor in the company's decision to initiate the project, and this is certified by the business.

- **Positive State Economic Impact:** The amount of new direct and indirect state taxes over an 8- to 15-year period, as calculated by DED, must exceed the total amount of incentives provided by the state.
- **Requirements:** New full-time (35+ hours per week) jobs in a new or expanding business (not including identical jobs filled by recalled workers, replacement jobs or jobs which previously existed in the business) are considered to be "new jobs". The business or a related taxpayer cannot have employed them during the preceding twelve months. The wages for such employees must be above the average wage for the area.
- **"Clawbacks":** In the event the business does not fulfill the commitments made regarding the number of new jobs or capital investment, the tax credits will be reduced proportionately. In the event the business relocates or reduces the operation below the minimum standards for new jobs or capital investment prior to the term of the bonds, the tax credits received prior to that time must be repaid in full.
- **Bond Purchase:** Since the MDFB cannot guarantee the bonds, the business will likely have to purchase the Bonds.

Statutory Authority: 100.700 - 100.850, RSMo	Applicable Taxes: Income Tax; Bank Tax; Insurance Premium Tax; Other Financial Institution Tax	

Program Description and Eligibility Requirements:
 The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance by the Board of certificates (bonds or notes) the principal and interest on which will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri State income tax credits. AUTHORIZATION

Sections 178.892 to 178.896 RSMo (2004)
Regulations: 4 CSR 195-3.010

ELIGIBLE AREAS

An eligible project may be located anywhere within the state of Missouri.

ELIGIBLE APPLICANTS

Businesses with a sound credit rating currently located in or locating to Missouri that are creating a substantial number of new jobs in Missouri by locating a new facility or expanding an existing workforce in Missouri.

ELIGIBILITY CRITERIA

Businesses applying must be:

- engaged in interstate or intrastate commerce for the purpose of manufacturing, processing or assembling products;
- conducting research and development; or
- providing services in interstate commerce.

Retail businesses do not qualify for the program.

Other eligibility criteria may apply, such as types of jobs, type of industry and wage rates.

PROGRAM BENEFITS/ELIGIBLE USES

The community colleges located in twelve districts in Missouri, in cooperation with the Missouri Department of Economic Development's Division of Workforce Development, administer the program. Funds for training and project costs are generated by using tax credits from the employer's regular withholding taxes that are paid for the employees in the created jobs. The amount paid is based

on a percentage of the gross wages that have been paid to the employees. The tax withholding is equal to 2.5% of gross wages for the first 100 jobs, and 1.5% for the remaining jobs in the project. The tax withholding credits for the project are claimed for an average of 4 to 5 years to pay for project costs.

Training assistance can include skill assessments, pre-employment training, instructor costs, curriculum development, travel and a variety of other training-related services. On-the-job training expenses are restricted to no more than 50% of a project's training costs. Training may be provided by the company, a local educational agency or a training vendor.

FUNDING LIMITS

Funding for this program is contingent upon the availability of funds. There is a limit on the total amount of outstanding project costs for all New Jobs Training Program projects. In addition, the amount of funds available each year is further controlled by the applicable appropriation.

APPLICATION/APPROVAL PROCEDURE

The appropriate community college will submit a "Notice of Intent" for a potential project to the Division of Workforce Development. The Division will determine company eligibility and review for training duplication. On behalf of the company, the community college will then submit an application for the New Jobs Training Program outlining training details. Upon approval by the Division, the community college may enter into a formal contract agreement with the company. The community college board of trustees must approve all final project agreements.

Community college contacts may be obtained through the Division of Workforce Development's Industry Training Unit at (800) 877-8698 or e-mail at: wfdcusto@ded.mo.gov.

REPORTING REQUIREMENTS

The community college will assist the company with documenting and submitting all reporting requirements for this program.

Revised February 2008

SPECIAL PROGRAM REQUIREMENTS

If applicable, union consultation is required.

This program is subject to "clawback" legislation. If any jobs for which training assistance has been received are moved out of Missouri or eliminated within five years of the date the project is approved, the company may be responsible for repayment of all training assistance received through the program. The Director of the Department of Economic Development has the authority and discretion to determine any exemptions from the repayment requirement.

Any proposed amount is an estimate based on the assumptions provided by the company. Any variation in the actual salaries or number of jobs created could affect the proposed amount and possibly invalidate the proposal. This summary is for guidance only and does not state complete program requirements.

Regulations: 4 CSR 195-3.020

ELIGIBLE AREAS

An eligible project may be located anywhere within the state of Missouri.

ELIGIBLE APPLICANTS

Businesses with a sound credit rating currently located in Missouri that have retained at that site the level of employment for at least one year, and a minimum of 100 employees for two consecutive calendar years preceding the year in which the application for the program was made. In addition, the business must make a capital investment of at least one million dollars to acquire long-term assets.

ELIGIBILITY CRITERIA

Businesses applying must be:

- engaged in interstate or intrastate commerce for the purpose of manufacturing, processing or assembling products;
- conducting research and development; or
- providing services in interstate commerce.

In addition to being determined at-risk, businesses must also meet one of the following criteria:

- Have made a substantial investment in new technology; or
- Be located in a border county of the state and represent a potential risk of relocation from the state; or
- Be determined to represent a substantial risk of relocation from the state by the Department of Economic Development.

Retail businesses do not qualify for this program.

Other eligibility criteria may apply, such as types of jobs, type of industry and wage rates.

PROGRAM BENEFITS/ELIGIBLE USES

The community colleges, located in twelve districts in Missouri, in cooperation with the Missouri Department of Economic Development through the Division of Workforce Development, administer the program. Funds for training and project costs are generated by using tax credits from the employer's regular withholding taxes that are paid for the employees in the retained jobs. The tax withholding is equal to 2.5% of gross wages for the first 100 jobs, and 1.5% for the remaining jobs in the project. The tax withholding credits for the project are claimed for an average of 4 to 5 years to pay for project costs.

Training assistance can include skill assessments, instructor costs, curriculum development, travel and a variety of other training-related services. On-the-job training expenses are restricted to no more than 50% of a project's training costs. In addition, total expenses for equipment, supplies and travel cannot exceed 25% of a project's training costs. Training may be provided by the company, a local educational agency or a training vendor.

FUNDING LIMITS

Funding for this program is contingent upon the availability of funds. There is a limit on the total amount of outstanding project costs for all Job Retention Training Program projects. In addition, the amount of funds available each year is further controlled by the applicable appropriation.

APPLICATION/APPROVAL PROCEDURE

The appropriate community college will notify the Division of Workforce Development in writing of its intent to submit a Job Retention Training Program Application with an eligible employer. On behalf of the company, the community college will then submit an application for the Job Retention Training Program. Upon approval by the Division, the community college may enter into a formal contract agreement with the company. The community college board of trustees must approve all final project agreements.

Community college contacts may be obtained through the Division of Workforce Development's Industry Training Unit at (800) 877-8698 or e-mail at: wfdcusto@ded.mo.gov

Revised February 2008

REPORTING REQUIREMENTS

The community college will assist the company with documenting and submitting all reporting requirements for this program.

SPECIAL PROGRAM REQUIREMENTS

If applicable, union consultation is required.

This program is subject to "clawback" legislation. If any jobs for which training assistance has been received are moved out of Missouri or eliminated within five years of the date the project is approved, the company may be responsible for repayment. The Director of the Department of Economic Development has the authority and discretion to determine any exemptions from the repayment requirement.

Any proposed amount is an estimate based on the assumptions provided by the company. Any variation in the actual salaries or number of jobs retained could affect the proposed amount and possibly invalidate the proposal. This summary is for guidance only and does not state complete program requirements.

AUTHORIZATION

Sections 447.700 to 447.718, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Any Missouri taxpayer is eligible to participate in the program.

ELIGIBILITY CRITERIA

- The applicant cannot be a party who intentionally or negligently caused the release or potential release of hazardous substances at the project.
- If the property is not owned by a public entity, the city or county must endorse the project.
- The project must be accepted into the "Voluntary Cleanup Program" of the Missouri Department of Natural Resources (DNR).
- The project must be projected by the Missouri Department of Economic Development (DED) to result in the creation of at least ten new jobs or the retention of 25 jobs by a private commercial operation.

PROGRAM BENEFITS/ELIGIBLE USES

The program authorizes several types of financial assistance for eligible projects:

• Remediation Tax Credits

DED may issue tax credits for up to 100% of the cost of remediating the project property. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR.

• Demolition Tax Credits

DED may issue tax credits for up to 100% of the cost of non-remediation demolition costs. The demolition must be part of a city (or county) and state approved redevelopment plan.

• Jobs and Investment Tax Benefits

Businesses locating at the project site that create new jobs to the state may receive (for up to ten years) tax credits in the amount of \$500 to \$1,300 per year for each new job created; 2% of new capital investment per year; and a 50% income exemption. To be eligible to receive these benefits, the city or county must provide at least 50% real property tax abatement for ten to 25 years.

The tax credits can be applied to:

- Sellable or transferable

The demolition tax credit's special attributes:

- Carry forward 20 years
- Sellable or transferrable

The jobs and investment tax credit has no special attributes. It must be applied to tax liability for the year it was earned.

FUNDING LIMITS

The total state costs of the project tax credits must be less than the projected state economic impact of the project, as determined by DED.

The amount of remediation and demolition tax credits

issued must be the least amount necessary to cause the project to occur.

APPLICATION/APPROVAL PROCEDURE

An applicant must submit an application to DED for determination of eligibility and request for remediation tax credits, Brownfield tax benefits, and/or demolition tax credits.

An application must also be submitted to the Department of Natural Resources (DNR) for participation in the "Voluntary Cleanup Program." Acceptance into this program is a requirement of the Brownfield Redevelopment Program.

Applications may be submitted year-round. Each application is reviewed on a case-by-case basis.

COMMUNITY DEVELOPMENT CORPORATION TAX CREDIT

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

Cumulative Cap Exhausted

PURPOSE

Induce the creation of Community Development Corporations (CDC) which would then invest in new or growing small businesses, owner occupied housing, certain types of real estate development, or redevelopment projects in a targeted area.

AUTHORIZATION

Sections 135.400 to 135.430, RSMo.

HOW THE PROGRAM WORKS

A "Fundor" (contributor or investor) may obtain state tax credits based on 50% of their investments or contributions in a pre-approved CDC. The CDC would then make equity investments or loans to a specific project within the designated redevelopment area.

ELIGIBLE AREAS

Statewide.

ELIGIBLE PROJECTS

Nearly any type of commercial business operation or real estate development project located in the designated redevelopment area is eligible to receive funding by the CDC projects. The targeted area is specified by the CDC, and must comply with certain demographic requirements specified by the Department of Economic Development (DED).

ELIGIBLE USE OF FUNDS

A CDC may use the funds for loans or equity investments to a business to be used for acquisition of real estate or buildings, new capital improvements and working capital. Funds may also be used for real estate development or redevelopment projects, including certain types of housing in-fill and new construction for owner occupied units.

APPLICATION PROCEDURE

A CDC may submit an application to DED at any time. DED will approve the application based on compliance with all the eligibility criteria and the ability of the CDC to successfully manage the fund. The CDC must prepare a revitalization plan to be approved by the Missouri Department of Economic Development, unless it is completely within a federal empowerment zone/enterprise community.

The tax credits will be provided to the "Fundor" upon documentation of the investment or contribution to the CDC as outlined in the program guidelines. Any contribution or investment made by the "Fundor" prior to DED's approval of a request for the tax credits by the CDC will not be eligible for tax credits.

FUNDING LIMITS

The maximum tax credits provided to "Fundors" of a CDC is \$100,000 (based on investments or contributions of \$200,000). The maximum investment by the CDC in one project/business is \$100,000. The CDC's investment must create/retain at least one full-time job (except in housing). Application approval will be based upon the availability of tax credits within the program along with the order in which they are received.

The types of investments identified in the application could fall into one of the three following categories: micro loans to new or growing small businesses, real estate development/redevelopment or housing in-fill/rehabilitation projects.

Expansion of How Award is Computed: Entitlement _____ Discretionary ☒
Based upon 50% of a contribution/investment into a pre-approved community bank or CDC. The level of funding is determined during the application phase. Approval is subject to the amount of credits available, the application meeting the program requirements, and the projected outcomes attainable.

Program Cap: Cumulative \$ 6 Million (remainder of cumulative cap) \$ 0 Annual \$ _____ None _____
Explanation of cap: When the program was initiated it received a one time allocation of \$6 million. In 2000 SB 894 was passed that would have allowed for an annual allocation of tax credits. However, SB 894 was found to be unconstitutional by the Missouri Supreme Court. Currently all of the initial allocation has been authorized to approved community banks/CDC's. While those approved community banks/CDC's continue to produce results no new applications are being accepted.

attributable to collectibles, other than collectibles that are held primarily for sale to customers in the ordinary course of such business; and

- Less than 5 percent of the average of the aggregate unadjusted bases of the property of the QALICB is attributed to nonqualified financial property.

Any business that derives or projects to derive 15 percent or more of its annual revenue from the rental or sale of real estate shall not be considered to be a QALICB.

PROGRAM BENEFITS/ELIGIBLE USES

The tax credit amount shall be equal to the applicable percentage of the adjusted purchase price paid to the issuer of such qualified investment:

- 0% for each of the first 2 credit allowance dates;
- 7% for the third credit allowance date;
- 8% for the next four credit allowance dates

FUNDING LIMITS

The amount of tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the tax credit is claimed.

The maximum state tax credit in any fiscal year for all CDEs is \$25 million. There is no limit per CDE, and state tax credits are allocated on a first come basis.

APPLICATION/APPROVAL PROCEDURE

CDEs that have been certified by the Federal NMTC program are eligible to apply for the state NMTC program. The state application will be a two part process:

- The CDE submits an application to the Department of Economic Development (which is available on the website below).
- Once eligibility is determined, DED will send a preliminary approval letter to the applicant CDE, which will include an allocated amount of NMTC contingent upon qualified investments being made within 30 days of the date of the preliminary approval letter.
- If an approved CDE is not successful in gaining proof of the investment, the CDE will be required to reapply and will be required to obtain a commitment that secures the investment in the amount of the application to accompany the new submittal.

Revised August 2009

REPORTING REQUIREMENTS

Twelve months from the date of the official allocation letter, the Applicant CDE must notify DED where the QEI was invested, provide adjusted purchase price, Senator and Representative information on where investment was made, and how much of a tax credit will be available for the taxpayer.

SPECIAL PROGRAM REQUIREMENTS

- The tax credit is not refundable or transferable. Any amount of credit that cannot be used in the taxable year may be carried forward to any of the taxpayer's five subsequent taxable years.
- Tax credits earned by a partnership, limited liability company, S-corporation, or other "pass through" entity may be allocated to the partners, members or shareholders of such entity for their direct use in accordance with the provisions of any agreement among such partners, members, or shareholders.
- Qualified investments shall not be made following fiscal year 2010, unless the program is reauthorized by the general assembly.

BUSINESS FACILITY TAX CREDIT PROGRAM

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

NOTICE

Pursuant to SB 1155 (2004), the Business Facility Tax Credit Program is being phased out of existence.

- Only a facility that has commenced operations or put its development into use on or before December 31, 2004, can be eligible for the program.
- Facilities that do not commence operations until January 1, 2005, or later, will not be eligible to receive incentives under the program.

Remember that Form 135.258, the pre-application ("Letter of Intent") for the facility, must be postmarked no later than 15 days before commencement of operations. For a business commencing operations ON December 31, 2004, the form must be postmarked no later than December 16, 2004. Forms postmarked after that date will be ineligible for the program without regard to the date of commencement of operations.

- Facilities already in the program as of December 31, 2004, will continue to receive the state tax incentives under this program for up to ten years as provided in the law. These facilities are considered to be "grandfathered" into the program.
- Pursuant to HB 191 (2009), "headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations on or before December 31, 2019 may be eligible for the program.

PURPOSE

Provide tax incentives to facilitate the expansion of new or existing businesses in Missouri.

AUTHORIZATION

Sections 135.100 to 135.150, 135.258, RSMo

ELIGIBLE AREAS

Statewide: Higher credit amounts are given for businesses in "distressed communities." For a list of cities and census block groups that are "distressed communities," visit DED's web site at www.missouridevelopment.org.

ELIGIBLE APPLICANTS

Facility eligibility is determined by its primary Standard Industrial Classification (SIC) or North American Industrial Classification System (NAICS) code, and includes manufacturing, warehousing, wholesale distribution,

mining, insurance carriers, research and development, recycling operations, computer-related services and certain office activities.

To receive credits in any of the ten years, the facility must create at least 2 new jobs (25 for office) and make \$100,000 in new investment (\$1,000,000 for "replacement facilities") in that year as compared to the base year (the year prior to the commencement of operations at the facility). For expansions of "headquarters" of certain "employee-owned" businesses, the facility must create at least 25 new jobs and make \$1,000,000 in new investment as compared to the base year.

The investment credits are based on the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

PROGRAM BENEFITS/ELIGIBLE USES

State income tax credits are provided to the business based on the number of new jobs created and amount of new investment at the qualifying facility. The credits are provided each year for up to ten years after the project commences operations.

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 – Insurance Premium Tax
- Sec. 375.916 – Insurance Co. Retaliatory Tax

This credit has no special attributes. It must be applied to tax liability for the year it was earned.

FUNDING LIMITS

New Companies

A new Missouri company can receive \$75 (or \$125 if in a distressed community) for each new job and for each \$100,000 of new capital investment at the project facility.

Existing Companies

An existing Missouri company can receive \$100 (or \$150 in a distressed community) for each new job and for each \$100,000 of new capital investment at the project facility.

days of receipt of the letter of intent form. Failure to meet this requirement precludes participation in the program for the base year sought.

Revised January 2010

APPLICATION PROCEDURE/APPROVAL

The business must submit a form letter of intent (pre-application) to the Department of Economic Development (DED) at least 15 days prior to the commencement of facility operations, otherwise, the project is ineligible for the tax credits. DED must determine eligibility of the business within 15 days of receipt of the letter of intent form. Failure to meet this requirement precludes participation in the program for the base year sought.

The business must file an application for tax credits for its first year of operations by the end of the tax year immediately following the tax year during which operations were commenced. Failure to timely file the application for credits for the first year of operations will result in a denial of the application and precludes participation in the program for the base year sought.

CAPCO PROGRAM

(Certified Capital Company)

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

PURPOSE

Induce private investment into certified venture capital funds that invest in new or growing Missouri small businesses.

AUTHORIZATION

Sections 135.500 to 135.529, RSMo
Regulations: 4 CSR 80-7.010 to 7.040

HOW THE PROGRAM WORKS

Private venture capital firms apply to the department for certification as a CAPCO. CAPCOs are allocated state tax credits to be given to insurance companies that invest in the CAPCO funds. At this point, all credits allowed under the law have been authorized. The credits can only be applied toward premium tax liability.

CAPCOs are required to make equity investments in eligible Missouri businesses according to a timetable set by law.

ELIGIBLE AREAS

Eligible Missouri businesses can be located statewide for all funds except funds created through the "distressed community" allocation. These funds must be invested in businesses located in distressed communities. For a list of cities and census block groups that are "distressed communities," visit DED's web site at www.missouridevelopment.org.

ELIGIBLE CAPCO INVESTMENTS

A CAPCO may invest in a "qualified Missouri business," which must:

- ✓ be independently owned and operated;
- ✓ be headquartered in Missouri;
- ✓ employ less than 200 persons before the investment is made with at least 80% of them employed in Missouri;

- ✓ be a small business concern that meets the requirements of the United States Small Business Administration qualification size standards for its venture capital program as defined in Section 13 CFR 121.301(c) of the Small Business Investment Act of 1958, as amended;
- ✓ be in need of venture capital and unable to obtain conventional financing; and
- ✓ derive its revenue primarily from:
 - ✓ manufacturing, processing or assembling of products;
 - ✓ conducting research and development; or
 - ✓ providing services in interstate commerce, excluding retail, real estate, real estate development, insurance and professional services provided by accountants, lawyers or physicians (service businesses must demonstrate that more than 33% of its revenue would be from outside the state of Missouri).

CAPCO fund investments can be in the form of equity investments, unsecured loans or hybrid investments.

CAPCO funds invested in the business must be used for new capital improvements, research and development and certain working capital expenses. All such funds must be used in Missouri.

The maximum amount a CAPCO may invest in one Missouri business is 15% of the CAPCO's certified capital.

Funding decisions are made by each CAPCO based on its evaluation.

CAPITAL TAX CREDIT PROGRAM

Cumulative Cap Exhausted

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

PURPOSE

Induce private investment into new or growing Missouri small businesses, which will result in the creation of new jobs and investment.

AUTHORIZATION

Sections 135.400 - 135.429 RSMo.

HOW THE PROGRAM WORKS

Department of Economic Development (DED) will issue a state tax credit to an investor in an approved Missouri small business (Capital Tax Credit project). The investor will receive either a 40% state tax credit on the amount of their investment. In the case of a qualified investment in a Missouri small business located in a "distressed community," the investor may receive a 60% state tax credit. Any investor who makes a direct qualified investment in a community bank or a community development corporation shall be entitled to a tax credit equal to 50% of the amount of the investment. The percentage of stock purchased by the investors is negotiated with the business.

ELIGIBLE AREAS

Statewide and eligible "distressed communities."

ELIGIBLE APPLICANTS

Any taxpayer investing in an approved Capital Tax Credit project. Investors that may not receive tax credits include "Principal Owners" (and spouse); relatives to the 3rd degree of consanguinity or affinity; or, a corporation, trust, partnership or other entity which is controlled directly or indirectly by a Principal Owner or relative.

The investment cannot have been made prior to the approval of the small business entering the program. The investment may be only in the

form of cash. The investment, which may be the purchase of stock or an unsecured loan, must remain in the company at least five years from the date of the investment.

ELIGIBLE USE OF TAX CREDITS

The tax credits may be used to offset Missouri tax liability incurred pursuant to chapter 143, RSMo, chapter 147, RSMo, chapter 148, RSMo, exclusive of tax as provided for in sections 143.191 to 143.265, RSMo. The tax credits will be issued to the investors after the investment has been made into the business and it has been certified by DED as a qualified investment.

The credits may be used by the investor over an 11-year period, or can be transferred or sold to a business or person that will have a state tax liability.

When the qualified small business is in a distressed community, the tax credit may also be used to satisfy the state tax liability of the owner of the certificate that was due during each of the previous three years in addition to the year in which the investment is made and any of the ten years thereafter.

APPLICATION PROCEDURE/APPROVAL METHOD

A taxpayer who invests in a qualified project will submit application Form 135-4, "Application for Requesting Certificate of Small Business Qualified Investment," to DED. There are no deadlines, however, applications will be processed on a first-come submission. DED will issue a tax credit certificate authorizing the applicant to claim the tax credit.

APPLICABLE PROJECTS

There is no deadline for the business to submit the application (Missouri Form T) to become a qualified project.

The business must derive their revenue primarily from manufacturing, processing or assembling of products; conducting research and development; or, service businesses which can demonstrate that 51%+ of revenue would be from outside the state of Missouri.

To be qualified for the program, the business must be headquartered in Missouri; be independently owned and operated; have 80% of its employees located in Missouri; and employ less than 100 persons. The annual revenue of the business in its last fiscal year must be less than \$2,000,000.

The Division of Securities (Missouri Office of the Secretary of State) must also approve the stock offering information submitted by the business.

FUNDING LIMITS

The minimum amount of tax credits allowed per *investor* is \$1,500 (\$3,750 investment). The maximum amount of tax credits allowed per *investor* is \$100,000 (\$250,000 investment). These limits shall not apply to investments made by a single investor in Missouri small business in a distressed community.

Aggregate investments eligible for tax credits in any one *business* can be no less than \$5,000 and no more than \$1,000,000.

The total amount of tax credits available for qualified investments in Missouri small businesses shall not exceed 13 million. At least 4 million shall be authorized for distressed communities.

SPECIAL PROGRAM REQUIREMENTS

The funds invested in the business related to the program may be used for new capital improvements; research and development; and

certain working capital expenses. All such funds must be used in Missouri.

ELIGIBLE APPLICANTS

Generally, manufacturing, processing or assembly projects that propose wages above the average for the area and provide health benefits are prioritized.

Other types of projects may be considered for approval if tax credits remain near the end of the state fiscal year.

There must be a positive economic benefit to the state. This calculation includes other state incentives provided for the project, and new public costs necessary to support the project.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 147 – Corporate franchise tax
- Ch. 148 –
 - Bank Tax
 - Insurance Premium Tax
 - Other Financial Institution Tax
- Ch. 153 – Express Companies Tax

The DTC program may be used for the acquisition of land or buildings through the purchase from cash contributions or donation of real estate. The acquisition of new or used machinery and equipment is also eligible if it is to be placed in an existing building.

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

FUNDING LIMITS

The amount of tax credits available for a single project:

- Is limited to the lesser of \$500,000, or \$10,000 per full-time, permanent job created by the business within two years of execution of the lease; and
- Must be the least amount necessary to cause the project to occur.

Credits authorized under this program are limited to \$6,000,000 per fiscal year.

APPLICATION/APPROVAL PROCEDURE

- Applications will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria, the need for this program to make a project feasible, a positive economic impact on the state and the availability of tax credits.
- The company cannot make a public announcement of the project prior to DED's contingent approval of an application.
- The not-for-profit (NFP) submits application documents to DED. If DED approves the request, a letter will be sent to the sponsor and company.

A DTC Agreement is executed between DED, the company and the not-for-profit. A lease agreement is executed between the company and the NFP. After the contribution is made, DED will issue tax credit certificates to the contributor.

REPORTING REQUIREMENTS

For three years following the year of the first issuance of tax credits, a Tax Credit Accountability Act Reporting form is sent out by the DED. It must be filled out and received back by June 30 to avoid penalties.

Revised January 2010

SPECIAL PROGRAM REQUIREMENTS

- The NFP must retain ownership of all properties acquired by the contribution for a minimum of five years. DED may allow a longer lease period depending on the needs of the project.
- The eventual disposition of properties acquired by the contribution will be no less than 75% of the fair market value of the facility, excluding the value of leasehold improvements.
- The amount of the lease payments will be determined by DED based on the following:
 - costs of the non-profit to operate and maintain the subject assets (if any); and
 - the amount of tax credits issued. In most cases, the NFP will provide DED the lease payments received in an amount to repay the tax credits plus interest.
- Only not-for-profit organizations authorized to operate in Missouri and headquartered in the geographic area of the proposed project are eligible recipients of DTC approved contributions. The business that will lease property from the NFP cannot have significant representation on the NFP's board.
- Ineligible NFP's include: churches and their denominational headquarters, units of government and any affiliated organization under their direct supervision, partisan organizations and public or tuition-based private schools.

AUTHORIZATION

Sections 135.950 to 135.973, RSMo

ELIGIBLE AREAS

Enhanced Enterprise Zones are specified geographic areas designated by local governments and certified by the Department of Economic Development (DED). Zone designation is based on certain demographic criteria, the potential to create sustainable jobs in a targeted industry and a demonstrated impact on local industry cluster development.

ELIGIBLE APPLICANTS

An eligible business must be located in a Missouri Enhanced Enterprise Zone (EEZ). Individual business eligibility will be determined by the zone, based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Service industries can be eligible if a majority of their annual revenues will be derived from services provided out of the state. Headquarters or administrative offices of an otherwise excluded business may qualify if the offices serve a multi-state territory. See application for complete information.

Ineligible Applicants:

Gambling establishments (NAICS group 7132),
Retail trade (NAICS sectors 44 & 45),
Educational services (NAICS sector 61),
Religious organizations (NAICS group 8131),
Public administrations (NAICS sector 92) and
Food and drinking places (NAICS subsector 722) are prohibited by statute from receiving the state tax credits.

ELIGIBILITY CRITERIA

The Enhanced Enterprise Zone program is a discretionary program offering state tax credits, accompanied by local real property tax abatement, to Enhanced Business Enterprises. Tax credits may be provided each year for five tax years after the project commences operations.

To receive tax credits for any of the years, the facility must create and maintain the minimum:

- New or expanded business facility – 2 new employees and \$100,000 new investment;
- Replacement business facility – 2 new employees and \$1,000,000 new investment
- Health insurance at all times, of which at least 50% is paid by the employer.

Eligible investment expenditures include the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to Ch. 143 – Income tax, excluding withholding tax

Tax credits can only be applied to tax liability for the year in which they were earned. The tax credits are refundable or may be transferred, sold or assigned. The sale price cannot be less than 75% of the par value of such tax credits.

FUNDING LIMITS

Tax credits will be an amount authorized by DED, based on the state economic benefit, supported by the number of new jobs, wages and new capital investment that the project will create.

Tax credits issued under this program are limited to \$24,000,000 annually, effective August 28, 2008.

APPLICATION/APPROVAL PROCEDURE

DED must first offer program benefits to the business in the form of a formal proposal. The company must return the accepted proposal within 90 days of the proposal date.

The company must submit the Notice of Intent (NOI), (Application & guidelines, pages 7-9), and be notified of approval before any new construction, and/or purchase of machinery and equipment can be eligible as new investment. NOIs will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria.

Revised December 2009

REPORTING REQUIREMENTS

Annual Application for Tax Credits –

The facility must file the Annual Application for Tax Credits and supporting documents each year for calculation of the facility's state tax benefits. See page 10 of the application for a list of requirements. The deadline for submitting the Annual Application for Tax Credits is during the tax period immediately after the tax period for which the credits are being requested.

SB 1099 Reporting –

The "Tax Credit Accountability Act" reporting form must be returned for this program to DED by June 30 of each year. This form can be found on our website in the download box on the front page of this section.

SPECIAL PROGRAM REQUIREMENTS

Applicants must be eligible for and receive at least ten years' local property tax abatement at 50% pursuant to the local enhanced enterprise zone plan.

Projects relocating employees from one Missouri location to another Missouri location must obtain the endorsement of the governing body of the community from which the jobs are being relocated and include this endorsement with the Notice of Intent.

A business cannot earn tax credits under this program if earning Enterprise Zone, Business Facility, Quality Jobs, Rebuilding Communities or Brownfield Jobs and Investment tax credits for the same project for the same tax period.

ENTERPRISE ZONE TAX BENEFIT PROGRAM

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

NOTICE

Pursuant to SB 1155 (2004), the Enterprise Zone tax benefit program is being phased out of existence.

- ✓ Only a facility that has commenced operations or put its development into use on or before December 31, 2004, can be eligible for the state tax incentives under the program.
- ✓ Facilities that do not commence operations until January 1, 2005, or later, will not be eligible to receive the state tax incentives under the program.

Remember that Form 135.258, the pre-application ("Letter of Intent") for the facility, must be postmarked no later than 15 days before commencement of operations. For a business commencing operations ON December 31, 2004, the form must be postmarked no later than December 16, 2004. Forms postmarked after that date will be ineligible for the state incentives portion of the program without regard to the date of commencement of operations.

- ✓ Facilities already in the program as of December 31, 2004, will continue to receive the state tax incentives under this program for up to ten years as provided in the law. These facilities are considered to be "grandfathered" into the program.

Enterprise zone real property local tax abatement is not affected by the phase-out of the state incentive program.

PURPOSE

Provide tax incentives to facilitate the expansion of new or existing businesses in one of Missouri's many enterprise zones.

AUTHORIZATION

Sections 135.200 to 135.270, RSMo

HOW THE PROGRAM WORKS

Local property tax abatement, a state income tax exemption and state income tax credits may be provided to a business based on various factors:

- ✓ the number of new jobs created
- ✓ the number of enterprise zone residents employed
- ✓ the number of "difficult to employ" people employed
- ✓ zone residents or difficult to employ employees receiving training
- ✓ the amount of new investment at the qualifying facility

The benefits are provided each year for up to ten years after the project commences operations unless the life of the enterprise zone expires before that time.

ELIGIBLE AREAS

The eligible project must be located in one of Missouri's "enterprise zones." Enterprise zones are specified geographic areas as certified by the Department of Economic Development (DED) based on demographic eligibility and approval of a request by the local governments. The number of zones that may be certified is limited by law.

A list of certified enterprise zones can be obtained from the department or via its web site. To determine whether a particular location is in an enterprise zone, contact the local zone administrator for that zone.

ELIGIBLE APPLICANTS

Facility eligibility is determined by its primary Standard Industrial Classification (SIC) or North American Industrial Classification System (NAICS) code, and includes manufacturing, warehousing, wholesale distribution, mining, insurance carriers, research and development,

Being Phased Out

recycling operations, computer-related services and certain office activities.

To receive credits in any of the ten years, the facility must create at least 2 new jobs and make \$100,000 in new investment (\$1,000,000 for "replacement facilities") in that year as compared to the base year (the year prior to the commencement of operations at the facility).

The investment credits are based on the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

ELIGIBLE USE OF TAX CREDITS

This tax credit can be applied to:

- ✓ Ch. 143 – Income tax, excluding withholding tax
- ✓ Ch. 148 – Insurance Premium Tax
- ✓ Sec. 375.916 – Insurance Co. Retaliatory Tax

This credit has no special attributes and can only be applied to tax liability for the year it was earned, unless it was issued for a new facility, for which there may be up to a \$75,000 refund of state income taxes in the first two years of eligibility.

APPLICATION PROCEDURE

The business must submit a form letter of intent (pre-application) to the Department of Economic Development (DED) at least 15 days prior to the commencement of facility operations; otherwise, the project is ineligible for the tax credits. DED must determine eligibility of the business within 15 days of receipt of the letter of intent form. Failure to meet this requirement precludes participation in the program for the base year sought.

The business must file an application for tax credits for its first year of operations by the end of the tax year immediately following the tax year during which operations were commenced. Failure to timely file the application for credits for the first year of operations will result in a denial of the application and precludes participation in the program for the base year sought.

FUNDING LIMITS

A company can receive:

- ✓ Up to a 50% state income tax exemption
- ✓ A \$400 credit for each new job
- ✓ A \$400 credit for each employee who is an enterprise zone resident
- ✓ A \$400 credit for each employee who was a "difficult to employ" person (receiving welfare or unemployed for a specified period of time)
- ✓ Up to \$400 credit per employee trained who was a zone resident or "difficult to employ"
- ✓ A credit equal to \$5,500 for the first \$100,000 of new capital investment at the facility and 2% of new capital investment amounts above \$100,000 at the facility
- ✓ 50% local property tax abatement on improvements

FILM PRODUCTION TAX CREDIT PROGRAM

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

PURPOSE

State tax credits are issued to a qualified film production company for up to 35% of the amount expended in Missouri for production or production-related activities to facilitate film production in Missouri.

AUTHORIZATION

Sections 135.750, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Any film production company with an expected in-state expenditure budget of at least \$100,000 for films over 30 minutes in length, and at least \$50,000 for films under 30 minutes in length.

ELIGIBILITY CRITERIA

A film production company claiming the credit must first apply to the Department of Economic Development. A particular film will be eligible to receive the tax credit based on the amount of funds still withstanding for that particular year. Prior to the approval, the department will also look at the economic impact in determining whether the particular project would be a good fit for the tax credit.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 –
 - Bank Tax
 - Insurance Premium Tax
 - Other Financial Institution Tax

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

Only those Missouri expenditures necessary for the production of the film are eligible. Such expenditures may include, but are not limited to, the costs of labor (Missouri residents only), services, materials, equipment rental, lodging, food, location fees and property rental.

FUNDING LIMITS

The entire film production tax credit program is capped at \$4.5 million.

APPLICATION/APPROVAL PROCEDURE

Due to a finite amount of tax credits available, DED has established a procedure whereby tax credits may be set aside

for a given film project by the submission of an application that provides estimates for the company's Missouri expenditures on the project. Based upon these estimates and any other relevant information, DED may reserve a given amount of tax credits for the project (for a given period of time). If it appears at any time that a project may be significantly delayed, then DED may review the project and, if warranted, reclaim those reserved credits and apply them elsewhere.

In the application form, DED will ask for estimates on the amount of money to be spent in Missouri, as well as projected dates for establishing the production office and the first day of principal photography. These dates will be used in determining the length of time for which tax credits may be reserved for the project, as well as the likelihood that the project will actually be produced in Missouri.

REPORTING REQUIREMENTS

Certain tax credit recipients are required to annually report to the DED information pertaining to the project that received the tax credits. The statute requires that a full year pass after the issuance of the tax credits before SB1099 reporting requirements must be met.

The "Tax Credit Accountability Act" reporting form must be submitted to DED by June 30 each year for three years following the year of the first issuance of tax credits, including the following information:

- Category of business by size
- Address of the business headquarters
- Addresses of all offices located within this state
- Number of employees at the time of the annual update
- Updated estimate of the number of employees projected to increase as a result of the completion of the project
- The estimated or actual project cost

NEW ENTERPRISE CREATION ACT

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

PURPOSE

To generate investment for new, startup Missouri businesses that have not developed to the point where they can successfully attract conventional financing or significant venture capital from later-stage funds.

AUTHORIZATION

Sections 620.635 – 620.653 RSMo.

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS FOR INVESTMENT

Any independently owned and operated business that is headquartered and located in Missouri and maintains a Missouri headquarters for at least three years.

ELIGIBILITY CRITERIA

The business must be involved in commerce for the purpose of production, conducting research and development or providing services in interstate commerce. The focus is on businesses in the startup or development phase.

Prolog Ventures, LLC (Prolog) is seeking businesses based upon proprietary technology with the potential to develop a strong intellectual property position. Areas of interest include medical devices and diagnostics, human and agricultural biotechnology and biomedical IT. Of potential interest are instruments, photonics, new materials and software.

Businesses that are excluded from investments include retail and consumer, real estate, oil and gas, minerals, telecom networks, Internet portals and publishing and consumer-oriented IT.

The business should have no positive cash flow in the prior fiscal year. Revenue oriented companies should target at least \$30 million in revenues in five years. Businesses whose valuation is not dependent upon revenues will be evaluated according to its potential for valuation increases upon attaining milestones. The business should be willing to provide a non-confidential summary and hold initial discussions on a non-confidential basis.

The business must maintain its headquarters in Missouri for a period of at least three years from the date of the qualified investment or be subject to penalty.

PROGRAM BENEFITS/ELIGIBLE USES

The Department of Economic Development (DED) will issue tax credits equal to 100% of the investment in a qualified fund to any accredited individual, corporation, partnership or financial institution that makes a qualified investment. At this point all credits under the law have been authorized and all investments have been identified.

The Missouri Seed Capital Investment Board was created to establish a qualified fund. The Board is comprised of thirteen members, eight of which are appointed by the Governor.

Prolog was selected by the Board as the Fund Manager to raise the contributions and manage the investments of the fund. Prolog entered into a contract with the four Innovation Centers, as required by statute. Investors in the qualified fund will also be required to invest in a non-qualified parallel fund that will make investments in Missouri and surrounding states. Prolog will make investments in qualified Missouri businesses in need of early-stage or "seed" funding.

Investments made through this program may be used for research; development and precommercialization activities to prove a concept for a new product, process or service; preproduction product development; service development; or initial marketing of a product.

DED provides the investor a tax credit equal to 100% of their investment in the qualified fund. The tax credit may then be used to offset state income tax (chapter 143, RSMo), corporate franchise tax (chapter 147, RSMo) or financial institution tax (chapter 148, RSMo) liability, other than taxes withheld pursuant to sections 143.191 to 143.265, RSMo.

DED may authorize up to \$20 million in tax credits for use by the qualified fund, with no more than \$5 million of tax credits being issued in any one year. Tax credits may be claimed for the tax year in which the qualified contribution is made or in any of the following ten years. Tax credits may be sold and transferred to another taxpayer having tax liability.

FUNDING LIMITS

The Prolog Funds will typically invest between \$500,000 and \$1,500,000 in a single business. They have the potential to invest \$2,000,000-\$3,000,000 at the maximum.

No more than 10% of all of the qualified contributions to a qualified fund may be invested in a single qualified business.

Revised June 2008

Investments shall not be provided to any business that has experienced positive cash flow in a past fiscal year, with the exception of follow-up capital limited to qualified businesses that previously received qualified investments. No more than 40% of qualified contributions may be used for follow-up capital purposes.

APPLICATION/APPROVAL PROCEDURE

(BUSINESS)

The business seeking an investment should send Prolog a non-confidential executive summary of their business plan. Applicants will be contacted directly by Prolog regarding their level of interest and any subsequent steps that are required. DED does not have the authority to require the Fund Manager to fund a project.

APPLICATION/APPROVAL PROCEDURE

(INVESTOR)

Accredited investors should contact Prolog directly. If accepted, the investor will be asked to fill out Missouri Form 620-635 and return the completed form to DED for approval and certification. DED will issue a tax credit certificate authorizing the applicant to claim the tax credit.

MISSOURI QUALITY JOBS PROGRAM

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

PURPOSE

Facilitate the creation of quality jobs by targeted business projects.

AUTHORIZATION

Section 620.1875-620.1900, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

For-profit and non-profit businesses [except for gambling, retail trade, food and drinking places, public utilities, educational services, ethanol distillation or production facilities, biodiesel production facilities, religious organizations, and public administration companies or businesses that are delinquent in non-protested taxes or other payments (state, federal or local), or any company that has filed for or has publicly announced its intention to file for bankruptcy.] Headquarters or administrative offices of otherwise excluded businesses that serve a multi-state area may qualify in some cases. The average wage of the new jobs must equal or exceed the county average wage (as published by DED), and the company must offer health insurance and pay at least 50% of the premium for all full-time employees in Missouri.

- **Average Wage:** Total annual payroll of the new jobs divided by the average annual number of new jobs.

ELIGIBILITY CRITERIA

The business must create a minimum number of new jobs at the project facility prior to the "deadline" date, based on the type of project:

- **Small/Expanding businesses:**
 - Rural areas: 20 or more new jobs within two years of the date of DED's approval.
 - Non-rural areas: 40 or more new jobs within two years of the date of DED's approval.
- **Technology businesses (classified by NAICS codes):**
 - 10 or more new jobs within two years of the date of DED's approval.
- **High Impact businesses:**
 - 100 or more new jobs within two years of the date of the hiring of the first new job, and the first new job must be within one year of the date of DED's approval.

PROGRAM BENEFITS/ELIGIBLE USES

For "Small/Expanding" businesses, the benefit of the program is the retention of the state withholding tax of the new jobs.

For "Technology" and "High Impact" businesses, the benefits of the program are (a) the retention of the state withholding tax of the new jobs; and (b) state tax credits, which are refundable, transferable and/or saleable. The program benefits are based on a percentage of the payroll of the new jobs. The program benefits are not provided until the minimum new job threshold is met and the company meets the average wage and health insurance requirements.

This tax credit can be applied to Chapter 143 (state income tax, excluding withholding tax) and Chapter 148 (financial institutions tax). Tax credits must be claimed within one year of the close of the taxable year that they were issued. Tax credits can only be applied to tax liability for the year in which they were earned. Any unused balance is refundable. The credits may also be transferred, sold or assigned.

The program benefits are calculated as follows:

Small/Expanding businesses:

Retain 100% of the withholding tax of the new jobs, each year for the benefit period of:

- Three years - if the average wage of new jobs is 100-119% of county average wage; or
- Five years - if the average wage of new jobs is at least 120% of county average wage.

Technology businesses:

5% of the payroll of the new jobs each year for five years; **plus:**

- "Average Wage Bonus"

High Impact businesses:

3% of the payroll of the new jobs each year for five years; **plus:**

- "Average Wage Bonus"
- "Local Incentives Bonus"

"Average Wage Bonus" (company average wage as a percentage of county average wage):

- Greater than 120% and up to 140%: 1/2% bonus of payroll of the new jobs.
- Greater than 140%: 1% bonus of payroll of the new jobs.

"Local Incentives Bonus" (amount of local incentives provided to the project as a percentage of the amount of new local tax revenues derived from the project, over 10 years):

- 10-24%: 1% bonus of payroll of the new jobs.
- 25-49%: 2% bonus of payroll of the new jobs.
- 50% or more: 3% bonus of payroll of the new jobs.

Each time the business meets the minimum new job threshold, it may start a new benefit period for the net new jobs created. There is no limit on the number of benefit periods a company may use the program, as long as a new Notice of Intent is completed and minimum new job thresholds and other program qualifications are met.

"New jobs" are defined as full-time (average 35 or more hours/week each year) employees of the company that are employed at the project facility, based on the increase from the "base employment" (the number of full-time jobs at the facility, or the average number for the twelve-month period prior to the Notice of Intent, whichever is higher, on the date DED receives the Notice of Intent). In the event the company (or a related company) reduced jobs at another facility in Missouri with related operations, the new jobs at the project facility would be reduced accordingly.

FUNDING LIMITS

There is no annual cap on the retained withholding taxes. Tax credits issued for the entire program shall not exceed \$80,000,000 per calendar year, and are provided on a first-come basis.

Revised September 2009

APPLICATION/APPROVAL PROCEDURE

An application ("Notice of Intent") may be submitted to DED at any time of the year by the business. Applications may be obtained at www.missouridevelopment.org. DED's approval will:

- Confirm that the type of project/business is eligible.
- Establish the date "base employment" is calculated.
- Reserve the estimated tax credits for the project.
- Establish the 2-year "deadline" date for the creation of the minimum new jobs to be eligible for the program.

REPORTING REQUIREMENTS

On an annual basis, the business must submit a report documenting the new jobs created, the total payroll, and confirming that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period. A high-impact project may continue as a small/expanding project as long as new jobs and other program requirements are met SB1099, or the Tax Credit Accountability Act Reporting Form must be submitted to Department of Economic Development by June 30th each year the company receives tax credits and for the three years following the end of the benefit period.

SPECIAL PROGRAM REQUIREMENTS

A business cannot earn benefits simultaneously at the project facility under this program if earning benefits under any of the following state programs:

- Missouri Enterprise Zone program or Enhanced Enterprise Zone program
- Business Facility program
- Rebuilding Communities program
- Brownfield Jobs and Investment tax credits

Special conditions apply when Quality Jobs is used at the same time as other programs that affect state withholding taxes (New Jobs Training, State TIF, MODESA).

Estimated state withholding taxes, based on adjusted gross income ("AGI"):

- AGI of \$19-25,000: 1.4%
- AGI of \$25-30,000: 2.3%
- AGI of \$30-35,000: 2.5%

- Statewide average of \$40,710 applicable to any county over the statewide average when determining program eligibility.
- The wage represents an average for all private industries.
- If a project is moving from one Missouri county to a county with a lower county average wage, the company must obtain endorsement from the governing body of the community where the jobs are located, or the higher county average wage will be used for calculations.
